If the HIV meds are not going to be filled out at the same facility, the patient **must** be given the Treatment Voucher (completely filled out) and the HIV Forms so that they are not charged by the Pharmacy.

Pharmacies **must** completely fill out the relevant HIV forms including all the information about the Federal Tax I.D and where the payment will be sent. Pharmacies **must** submit itemized billing statements clearly showing the amount covered by the Insurance and the outstanding balance.

Child Advocacy Centers (CACs) **ONLY** must submit the Comprehensive Child Sexual Abuse Medical Exam/Treatment Billing Form and the itemized bills and E.O.Bs where the child has insurance.

All the forms must be **COMPLETELY** filled out in all sections to be considered complete. Failure to fill out all sections on any of the forms will result in the claim being denied.
